I am a perfectionist and want to do things the "right" way. I don't like leaving people out. Perfection is impossible and not the goal. "Do the best you can until you know more. Then, when you know better, do better."

Blue Sky Manifesto

1. Redirect 1/3 of NYPD funds to social services such as parks, libraries, and mental health counselors

2. Take 1/2 of ~~that~~ 1/3 to establish a department of mental health social workers. These workers will go into homeless communities to establish relationships with people much the same that social workers do.

3. Emergency order to turn vacant office buildings into housing and rehabilitation centers with tiered levels of support to get people back on their feet. Social workers will guide those in need of help into this system and on the mend. No one will be forced into this system, however ~~[illegible]~~ there will be increased mental health workers "on the beat" in areas where ~~[illegible]~~ erratic individuals frequent. These beat MHWs will not have weapons, but will have food, water, narcan, and basic protection gear such as mace. The point is for a friendly face trained in de-escalating situations with mentally ill people to be available and near to help protect both pedestrians and unhoused people.

4. Executive order to build city owned affordable housing - 200,000 units or more to reduce demand and rent prices.

Thank you all ♡

It's a such wonderful class. This is a presious opportunity to learn disability in this way. I'm appreciate that Maria didn't cancle this class. This class changed how I look at disabled people and what kind of things that I can do to help them.

I really enjoy everyday we spend together, when we are talking, communicating, listening... That's the perfect scenario of studying. Thank you for all the sharing, contributing. And I wish we all have beautiful ~~[illegible]~~ tomorrow. :)

This class was so incredibly special to me, not only because Maria is amazing, but I truly LOVED learning from each of you. I think being and learning alongside all of you is what made it the most special.
I'm very grateful to have met you all!

What is the school you DREAM about?

I dream about a warm and inviting place, where the teachers are truly happy and fulfilled working there. They feel seen, heard, valued, and most of all full supported by admin. Students run to get inside in the morning because school is their happy place. They feel seen, heard, and valued by their teachers, admin, and most of all each other. A main part of this school's culture is presuming competence. Presuming that every child has the competence to learn, especially students with disabilities.
